

MonkeyFoodFactory™

Imagine a single software system for running your food business – an integrated solution for sales, production, distribution, inventory, supply chain management, accounting and more. MonkeyFoodFactory delivers it all, on a scalable, easy to use web-based platform that can grow with you, whether you're a single-unit local manufacturer or a national operator doing business coast-to-coast.

Comprehensive - Adaptable - Easy to use

MonkeyFoodFactory is the next generation in operations software, designed specifically for the food industry.

Highlights:

- Ideal for bakeries, roasters, condiment producers, chocolate factories and other fresh and frozen food manufacturers
- 100% web-based, with no software to install. Accessible from any computer with web access, anywhere!
- Configurable for single- or multi-factory operators
- A unified platform for retail, wholesale and internal business
- Seamlessly blends sales, production and inventory for better control and visibility
- Easy recipe and formula management
- Manage the supply chain with detailed item and cost controls
- Highly configurable to adapt to your business needs
- Easily integrates with your existing accounting and web site management systems

Get serious about Food™

BENEFITS

- Increased sales: easier order entry and online self-service for customers and vendors
- Higher customer satisfaction: easier order process, fewer manual steps mean fewer potential errors
- Reduced IT overhead: A 100% web-based platform that requires no dedicated on-site hardware or software
- Better strategic management: Access a wealth of real-time information to make better business decisions
- Increased scalability: An advanced, configurable platform that grows with you

Why choose MonkeyFoodFactory?

For IT

- A proven, established system designed exclusively for food production
- No hardware required, and accessible from anywhere with an internet connection
- 24/7 technical support and guaranteed uptime of 99.9%.

For Production and Distribution

- Detailed global and factory-level production planning by item and by order reduces errors and increases efficiency
- Easily handle notes and special requests, and print detailed labels and pack slips for each order
- Easily manage drivers and routes to optimize efficiency and ensure consistently high service levels.

For Senior Management

- An integrated system that improves operational efficiency to help focus resources on growth
- Enables better strategic decisions with a wealth of real-time reports across a wide range of business metrics
- Leverage the latest technology to position your company as a leader in your segment.

MonkeyFoodFactory optional add-ons

- MonkeyMailOrder for Direct-To-Consumer sales
- Integrated credit card processing for online orders
- LeadTracker™ integrated CRM system for growing your customer base
- Executive dashboard for real-time business intelligence and reporting

2 Formats

MonkeyFoodFactory is available in two formats, depending on the size and scope of your operations.

1. Small/Medium Business (SMB): ideal for local single- and multi-factory operators, the SMB format offers the complete feature set ready to go.
2. Enterprise: Designed for regional and national multi-factory operators, the Enterprise format expands on the SMB version with the ability to configure the application based on the unique requirements of larger, more complex operations.
